

IRB and RWC use policy

Please understand that if you are not qualified and proficient to be a crew person or driver of an IRB, that you are not allowed to use the IRB. Patrol captains are asked to ensure on all patrols which members patrolling that day are entitled to use the IRB. If in doubt, in the patrol folder is the current list of what awards members are proficient for. Also only those members who are proficient for RWC award are entitled to use the Jet Ski.

The significance of not complying with these rules cannot be understated, considering that this could cause any number of consequences to be triggered such as disciplinary action and loss of workers compensation benefits.
